Your first presentation

Use the simple presentation builder to get started with your first presentation!

How Mentimeter works:

1. Create your questions and slides
2. The audience connects to the presentation and answers the questions you've prepared
3. Results are shown in real time

Create your first question

Multiple choice questions, with options for the audience to choose from, are a great way to get started!

Your question:

How are you feeling today?

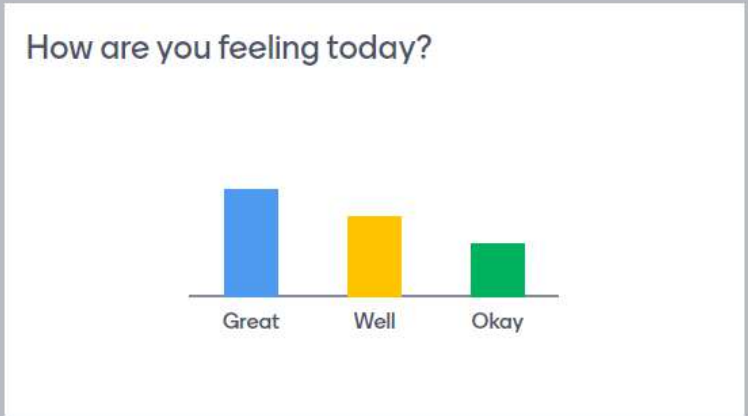

👉 Edit the question if you want to!

- 1 How are you feeling today?
- 2 Describe eLearning technology with three words!

Describe eLearning technology with three words!

A word cloud visualization with the words "example", "words", "opinions", and "word cloud". "example" is the largest word in blue, "words" is in pink, "opinions" is in red, and "word cloud" is in green. There is a yellow smiley face icon to the left of "word cloud".

Add a Word Cloud

Collaborative word clouds get people to open up and reflect. Popular words will grow bigger!

Your question:

👉 We added some example words to show how it looks!

Continue

There are no options to choose from. The audience submits their own words!

Choose a theme

Different events call for different looks - what suits your presentation better?

Choose theme:
