shows you a mix of  
content from across  
Microsoft 365

# What is Delve?

Use Delve to manage your **Microsoft 365 profile**, and to **discover** and **organize** the information that's likely to be most interesting to you right now - across Microsoft 365.

Delve never changes any permissions, so you'll only see documents that you already have access to. Other people will not see your private documents. [Learn more about privacy.](#)

- To go to Delve, select **Delve** in the app launcher in Microsoft 365, or open [delve.office.com](https://delve.office.com) in your browser. Sign in with your work or school account if necessary.

The screenshot shows the Microsoft 365 app launcher with the 'Delve' app selected. The Delve interface is displayed, featuring a left sidebar with navigation options and a main content area showing popular documents. Annotations with pink lines point to specific features:

- Open Delve**: Points to the Delve icon in the Microsoft 365 app launcher.
- Type to search**: Points to the search bar in the Delve interface.
- Get back to your documents**: Points to the 'Home', 'Me', 'MyAnalytics', and 'Favorites' links in the sidebar.
- Add favorites and get back to them later**: Points to the 'Favorites' link in the sidebar.
- Click a name or picture to go to someone's profile page**: Points to a user profile card in the 'People' section of the sidebar.
- Click a card to open the document**: Points to a document card in the 'Popular documents' section.

The interface includes sections for 'Popular documents', 'People', and 'Boards'. The 'Popular documents' section shows cards for 'Q2 Web Market Planning' (PowerPoint) and 'Documents • Contoso' (OneNote). The 'People' section lists users like Allie Bellew, Tony Krijnen, Zrinka Makovac, Katie Jordan, Aziz Hassouneh, Janet Schorr, and Bonnie Kearney. The 'Boards' section shows a board for 'CONTOSO REPORTS Q2 EARNINGS' (Word) and another for 'Excel'.

you can create surveys, quizzes, and polls, invite others to respond to it using almost any web browser or mobile device, see real-time results as they're submitted, use built-in analytics to evaluate responses, and export results to Excel for additional analysis or grading.

# Planner tasks and plans API overview

Article • 01/11/2023 • 2 minutes to read • 9 contributors

[Feedback](#)

The Planner API in Microsoft Graph provides a simple and visual way for teams to organize their work. Customers can use Planner to create plans, organize and assign tasks, share progress, and collaborate on content. Planner provides several interactive experiences including a task board, a charts page, and a schedule view, as well as integrations throughout Microsoft 365.

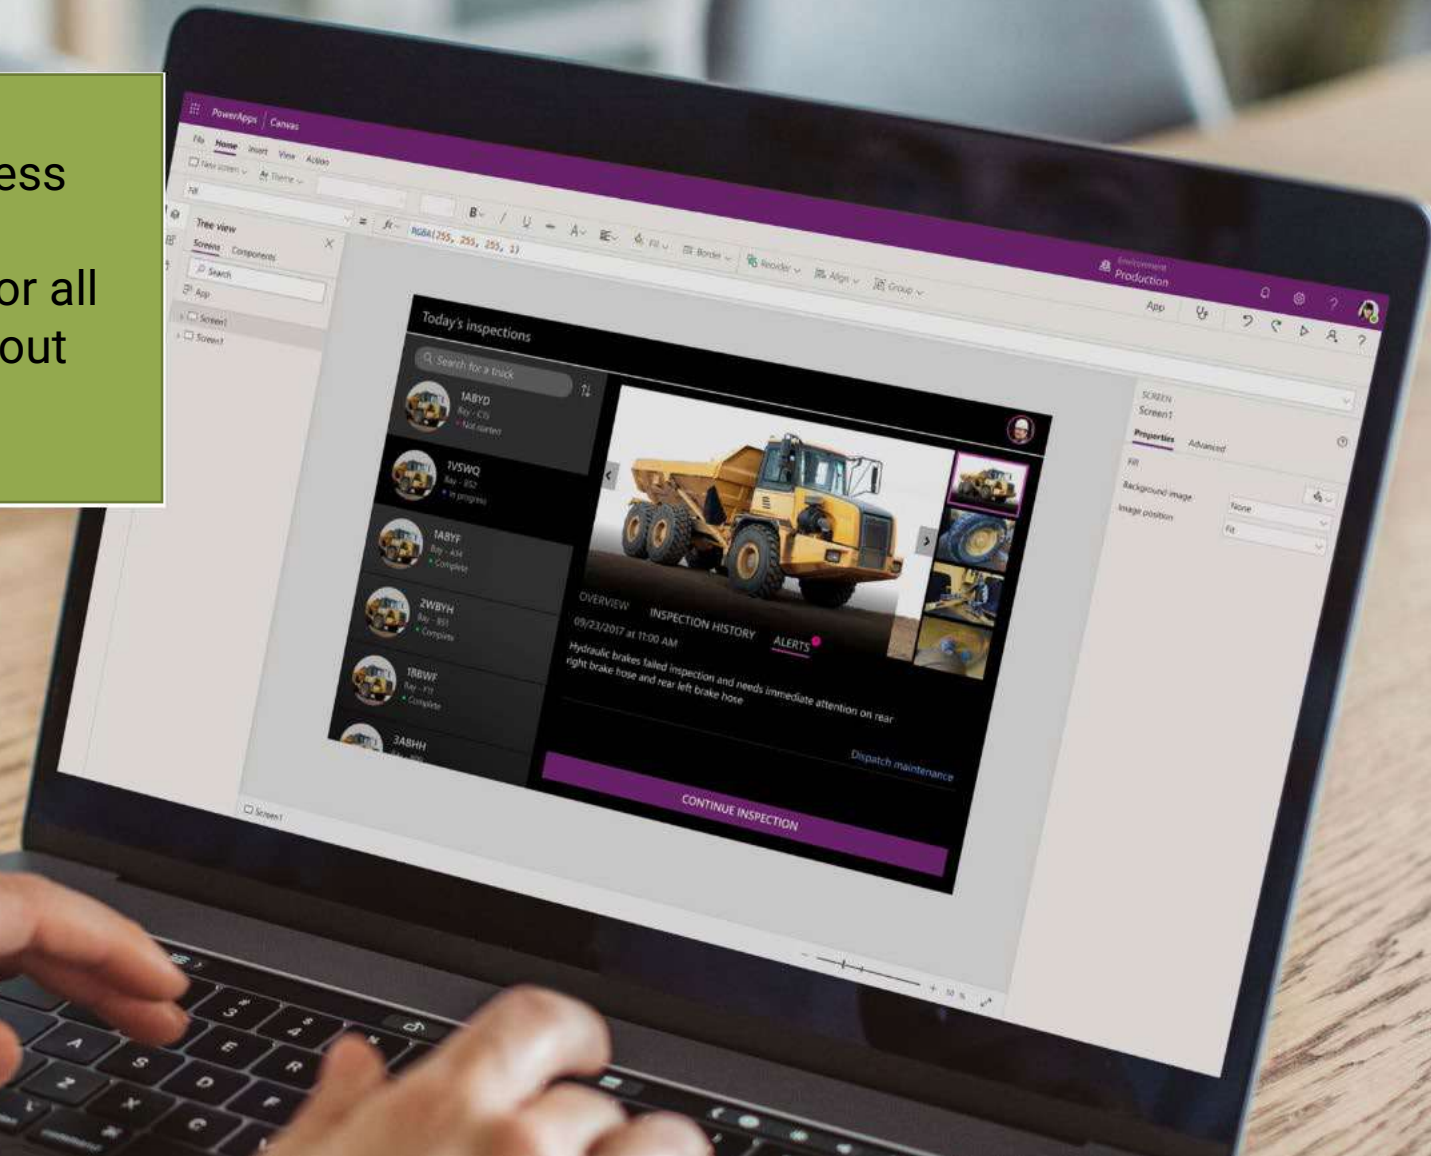

## Microsoft 365 Planner task board

Adele Vance joined the meeting

Alex Wiber 12:48  
Have we also thought about building this new feature in a way that allows other businesses with security concerns to create a quadcopter free zone? We could work with larger sporting venues and international competitions to ensure our drones aren't used in their venues.

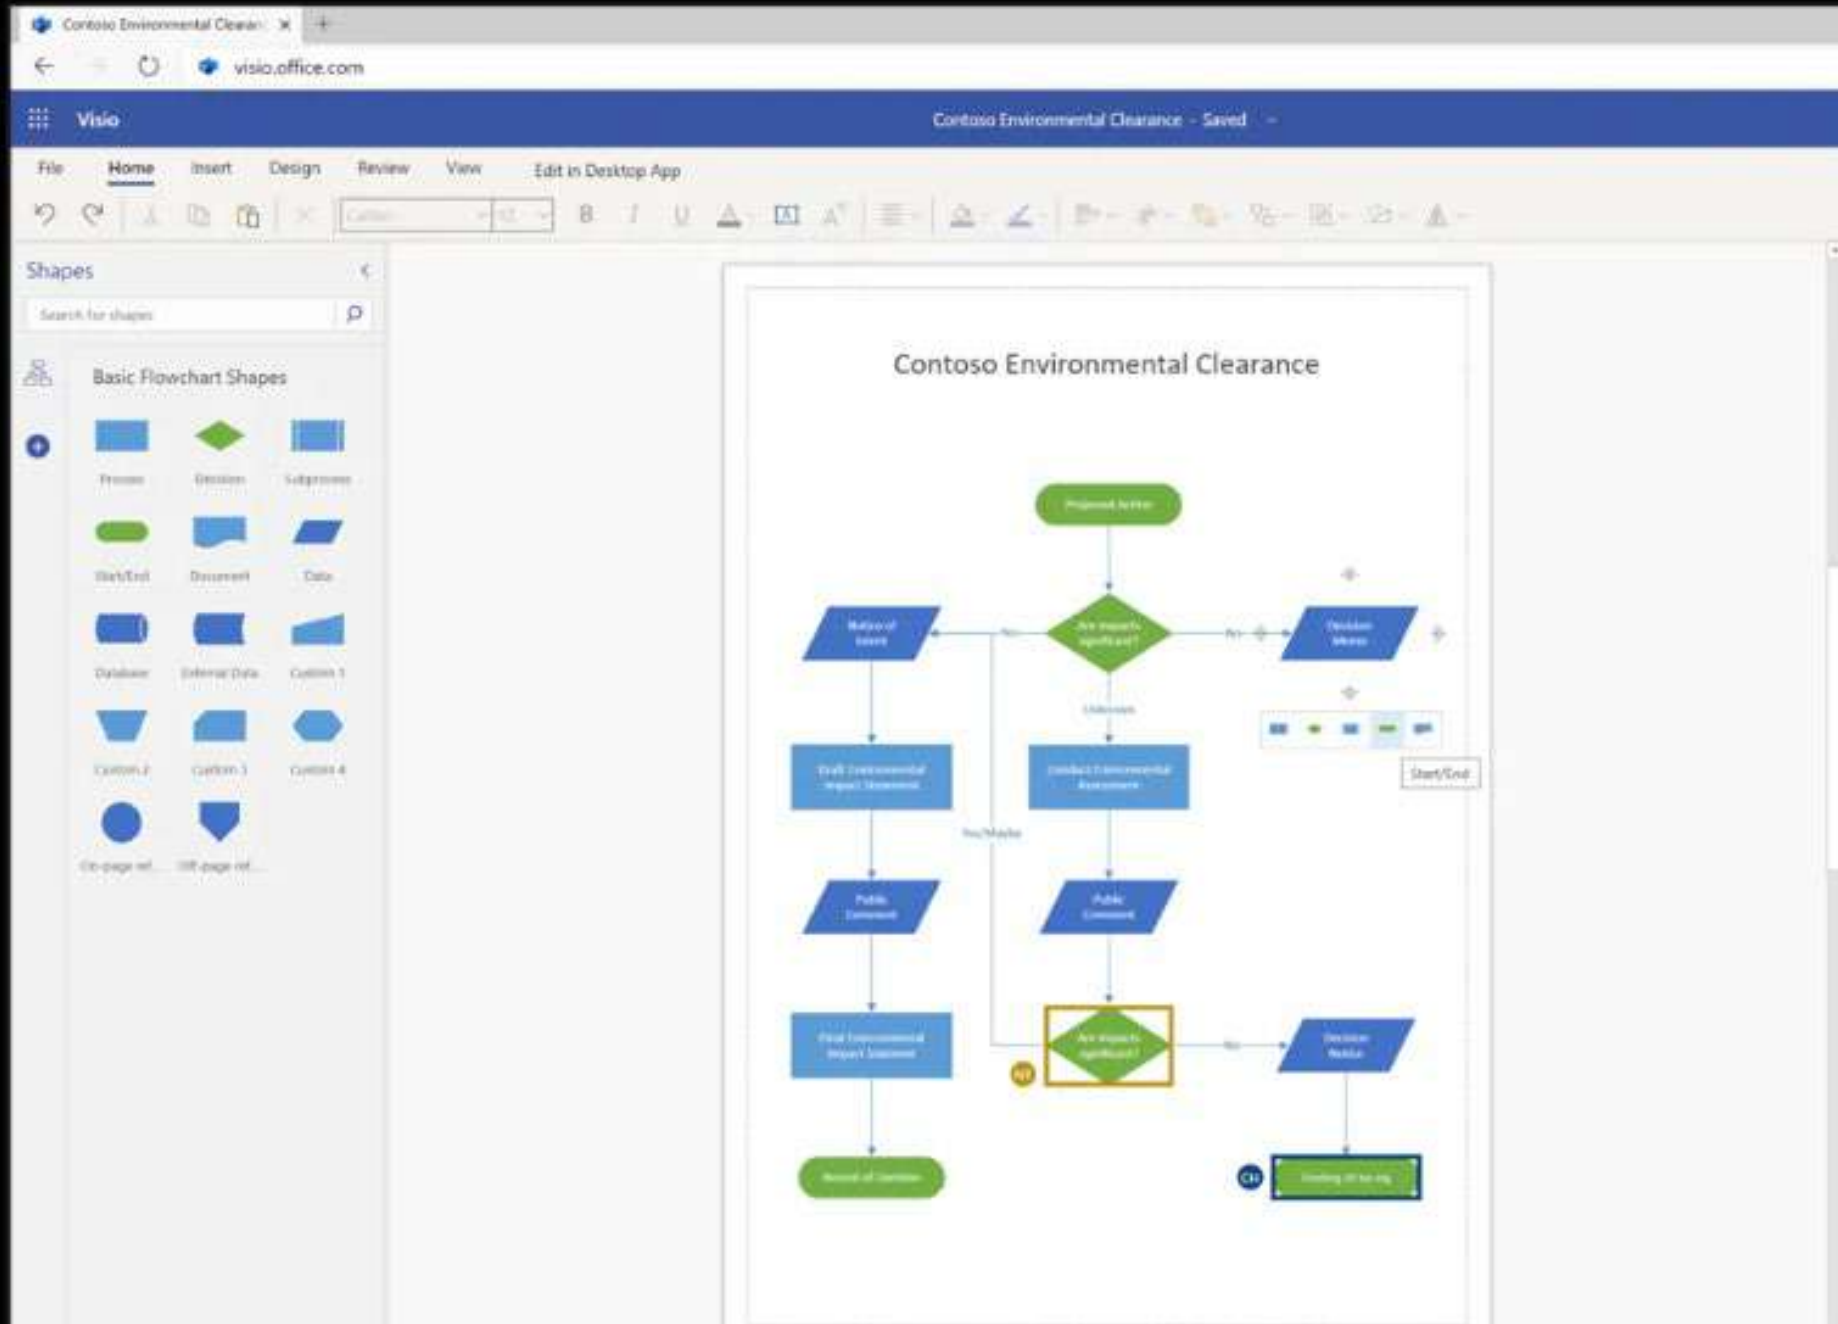

Adele Vance 13:15  
Yes we have. The new safety program also involves a monitoring system that can be deployed at venues like this. The system allows them to forcibly take control of an aircraft that is endangering others. This system is completely contained and can be dispatched for qualifying events.

Daniela Mandera 13:50  
We're off to a great start. Let's keep the momentum going.

Adele Vance 14:10  
Similar to all our recent programs we added a new feature to disable the ability for our products to fly into restricted spaces. It alerts the pilots to know that

transform complicated text  
and tables that are hard to  
understand into visual  
diagrams that  
communicate information  
at a glance

# Microsoft Whiteboard

Surface Phone  
Italy

a free-form, digital new canvas where people, content, and ideas come together

Mind Map

00:22:06

Open in app

Upcoming Goals

Q1

- Set up cmt schedule
- plan out social media for the next 2 months
- Outline blog articles
- Organize files
- Clean up marketing chart

Q2

- Research shoe design
- Product photo shoot
- Create plan for website launch
- Update website to reflect new design

Product Launch Tasks

- ☒ Update progress
- ☐ Create roadmap
- ☐ Brainstorm names

Current in app test is top aligned left justified

Let's update in-app

38% US, 25% UK, 25% Europe, 12% Canada

Q2 Regional Sales Report

Ideas

- Broad traditional campaign focused on staggered release
- Tightly targeted IG/FB campaign ads as pilot

Brainstorming

- What are our core values?
- What are our core strengths?
- What are our core weaknesses?
- What are our core opportunities?
- What are our core threats?
- What are our core challenges?
- What are our core goals?
- What are our core objectives?
- What are our core strategies?
- What are our core tactics?
- What are our core actions?
- What are our core results?
- What are our core metrics?
- What are our core KPIs?
- What are our core benchmarks?
- What are our core targets?
- What are our core deadlines?
- What are our core responsibilities?
- What are our core roles?
- What are our core team members?
- What are our core stakeholders?
- What are our core partners?
- What are our core competitors?
- What are our core customers?
- What are our core users?
- What are our core audiences?
- What are our core markets?
- What are our core segments?
- What are our core demographics?
- What are our core psychographics?
- What are our core behaviors?
- What are our core attitudes?
- What are our core beliefs?
- What are our core values?
- What are our core principles?
- What are our core ethics?
- What are our core standards?
- What are our core guidelines?
- What are our core policies?
- What are our core procedures?
- What are our core processes?
- What are our core workflows?
- What are our core systems?
- What are our core tools?
- What are our core technologies?
- What are our core platforms?
- What are our core applications?
- What are our core services?
- What are our core products?
- What are our core offerings?
- What are our core solutions?
- What are our core outcomes?
- What are our core impacts?
- What are our core legacies?

Strengths

- Target local peak shopping for launch promotion
- Partnership with top influencers
- Break customer records

Weaknesses

- Local competition

Threats

- Price volatility
- 9% only increase
- Unstable demand
- Regular reliability
- Too many suppliers

Opportunities

- Regional influencers
- Community support
